

ASIKA A

Aspiring Software Engineer | Design, Front-End Developer & Problem-Solving Enthusiast

62/A1 Pandian Nagar, 4th street, Thiruthangal, TamilNadu, 626130 | (+91) 9788124908 | asikaayyarselvam@gmail.com | [LinkedIn](#)

SUMMARY

Aspiring Software Engineer with a strong foundation in C, Python, MATLAB, and SQL, currently exploring Machine Learning, AI, and Data Analytics. Passionate about AI-driven technologies, full stack development, and data-oriented solutions, with skills in problem-solving, clean coding, and web design using HTML and CSS. Eager to continuously upskill, learn emerging technologies, and contribute to innovative and future-ready software projects in a dynamic IT environment.

EDUCATION

B.E Biomedical Engineering, PSG College of Technology, Coimbatore (Currently pursuing)
CGPA: 8.33/10

PROFESSIONAL EXPERIENCE

- UI/UX Design Intern, InternEzy-Intern with us(online)** Jul-Sep 2024(2 months)
 - Designed UI/UX wireframes and prototypes in Figma with a focus on usability and user experience.
 - Improved designs through feedback-driven iterations and visual enhancements.
- Full Stack Development Intern, CogniTech, Coimbatore(offline)** Nov 2025(8 days)
 - Learned full stack development fundamentals including HTML, CSS, and backend basics.
 - Used XAMPP for local server setup, database handling, and understanding web application workflows.
- Data Analytics Intern, Aivar Innovations (HQ), Coimbatore(offline)** May-Jun 2026 (Ongoing)
 - Working with Python, data cleaning, processing, handling, and visualization techniques.
 - Contributing to projects related to Data Analytics, Machine Learning, and AI.

PROJECTS

- An Interactive Gamified Rehabilitation Glove for Upper Limb Therapy**
 - Developing a gamified rehabilitation glove that translates therapeutic hand movements into interactive game actions.
 - Integrating sensor-based input to track user movements and enable real-time feedback.
 - Enhancing patient engagement and recovery through intuitive, user-centered design.
- Machine Learning-Based Cow and Buffalo Classification**
 - Developed a machine learning-based image classification model using transfer learning (VGG16) to accurately distinguish between cows and buffaloes.
 - Integrated pose estimation techniques to extract key biometric features (body length, height, chest width, rump angle) for structured analysis and scoring.
- Accelerometer Based Human Step Counting System**
 - Developed an accelerometer-based system to accurately detect and count human steps using motion sensing techniques.
 - Implemented signal processing and calibration methods to enhance step detection accuracy and reliability.
- Deep Learning Approach for COVID-19 Detection**
 - Developed an EfficientNet-B0 based deep learning model for COVID-19 detection from chest X-rays.
 - Implemented data preprocessing, model tuning, and optimization using Python and TensorFlow/Keras.
- Smart Bandage for Wound Healing**
 - Built a Wi-Fi enabled smart bandage prototype for real-time wound monitoring with continuous data transmission.
- LLM Reliability Analysis Using Real-Time Health and Disease Data (Ongoing)**
 - Developing a system to evaluate the factual reliability and hallucination behavior of multiple LLMs using real-time health and disease datasets.
 - Exploring Python, APIs, prompt engineering, data processing, Pandas, NumPy, regex extraction, and comparative analysis of LLMs.
 - Building an interactive Streamlit and Plotly dashboard to visualize model accuracy, hallucination rates, and performance trends.

SKILLS

- Libraries & Toolboxes:** MATLAB (Image Processing Toolbox), Python
- Languages:** C (Basic), SQL (Basic), Python (Intermediate), Arduino (Intermediate)
- Design & Productivity Tools:** Microsoft Office (Word, Excel, PowerPoint), Figma
- Other Skills:** Teamwork, Time Management, Leadership, Communication

CERTIFICATIONS

- Paper Presentation at International Conference on Advancements in Biomedical Systems and Healthcare Technologies
- TNWISE Hackathon Winner
- The Complete HTML5 Course: From Beginning to Expert (*Udemy*)
- Web Design Course with HTML CSS and WordPress (*Udemy*)

PROFESSIONAL AFFILIATIONS

- Literary & Editorial Team Head: IEEE SC 12951, PSG College of Technology Present
- Member of BMEA, PSG College of Technology Present
